

APPLICANTS' SUMMARY OF THE INTERVIEW

Applicants' and the undersigned would like to thank Examiners Lanier and Cribbs for the courteous and most helpful interview conducted on January 20, 2011. In attendance at the interview on behalf of Applicants were Messrs. Murphy and Shawn, the inventors, and the undersigned.

At the interview, Applicants pointed out the distinctions between the Bohrer, Cordery and Crews references and independent claims 1 and 13. The Examiners agreed that claims 1 and 13 as presently drafted, and the remaining claims that depend therefrom, patentably distinguish over the cited references.

REMARKS

In the Office Action, the Examiner objected to claims 1 and 13 with respect to lack of an antecedence basis for the phrase "the regulatory compliance requirements". Claims 1 and 13 have been amended to provide the proper antecedence basis.

Claim 4 was objected to as being informal with respect to the word "user." Claim 4 has been amended to correct this informality.

Claims 18, 20, 21, 25 and 26 were rejected under 35 U.S.C. § 112, first paragraph, on the basis that these claims contain new matter. While Applicants do not agree that these claims contain new matter, they have been cancelled in the interest of advancing prosecution of the instant application.

With respect to the prior art, all claims were rejected under 35 U.S.C. § 103(a) as being unpatentable over various combinations of prior art. Specifically, independent claims 1 and 13 were rejected as being unpatentable over Bohrer et al. in view of Cordery and further in view of

Crews. These references were discussed at the above mentioned interview conducted on January 20, 2010. Agreement was reached at the interview that claims 1 and 13 patentably distinguish over these references, along with all remaining claims which depend therefrom.

CONCLUSION

All pending claims in the present application are believed to be in condition for allowance. Thus, an early indication of allowance of this application is respectfully requested.
